

# Saligna

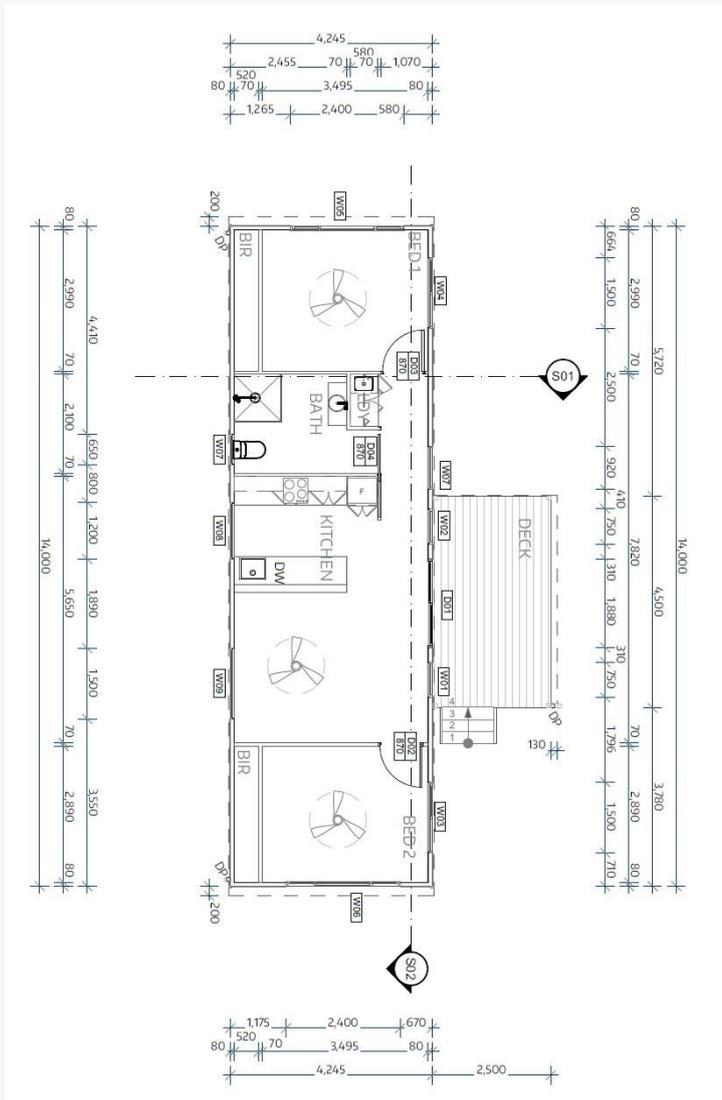

2 bed   
 1 bath   
 60m<sup>2</sup>

## About this design

The **Saligna** is a beautifully designed compact modular home that delivers comfortable living without unnecessary space. At approximately **60m<sup>2</sup> internally**, this two-bedroom home has been carefully planned to maximise functionality, natural light and connection to outdoor living.

Positioned at the centre of the home, the open-plan **kitchen and living area** creates a welcoming space for everyday living and entertaining. Large windows allow natural light to fill the interior while maintaining a strong connection to the outdoors.

The **two bedrooms**, located at opposite ends of the home, provide privacy and flexibility, making the Saligna ideal for couples, small families, guests or rental accommodation. Both bedrooms include built-in robes and easy access to the centrally located bathroom.

Extending from the living area, the **11.3m<sup>2</sup> covered deck** creates a seamless transition between indoor and outdoor living — perfect for relaxing, entertaining or enjoying the Queensland lifestyle.

- Quality Construction**  
 We prioritise strength and durability in every build.
- Speed & Efficiency**  
 Built in a controlled workshop environment, free from delays.
- Sustainable & Cost Effective**  
 Energy-efficient solutions for lower living costs or off-grid living.
